

COMMUNITY RELATIONS

Soliciting Funds from School Personnel

Contributions to charities and community service organizations, such as the Springfield Platteview Community Schools Foundation or the United Way, are decisions which individual staff members should decide free from implied endorsement or coercion which could result when administrative effort and school time are used. School time is not to be used for solicitations of any funds not directly a part of the school's program or purpose.

Tickets to affairs sponsored by or for non-school agencies are not to be sold in any public school or on school premises by any school or school organization or by any non-school organization, except at specified times and places which shall be approved by the Superintendent.
